CITY COUNCIL
REGULAR MEETING

Ordinance Passed For Paving Lamar Street—Bryan Street Will Be Used For Unloading Material.

The City Council met in regular monthly session Friday night with Mayor W. W. Harris presiding. The following officials of the city were present: Aldermen W. S. Wilson, Jr., John C. Vick, Dr. B. U. Sims and J. S. Doane. City Engineer A. S. Adams, City Secretary R. T. Smith, Special City Attorney J. W. Doremus, Chief Clerk of Public Utilities G. P. Bittle, City Electrician C. G. Smith and Deputy City Marshal A. E. Worley. R. W. Howell appeared before the Council for the Bryan Telephone Company. Mr. Howell explained that his company was contemplating some extensive improvements and as its present charter expires in 1919 he was seeking the extension of same. The matter, after considerable discussion, was referred to the ordinance committee, requesting them to report back to the next regular meeting.

Messrs. L. L. McInnis, A. W. Wilkerson, A. M. Waldrop, Ed Hall and Robert W. Howell appeared before the Council representing the property owners on Lamar Street and requested the City Council to authorize the paving of Lamar Street from the east line of Dallas Street to the west line of Hutchins Street, the abutting property owners each paying one-third of the cost. The proposition met a favorable consideration by the council and an ordinance was passed authorizing the paving of said street and the city engineer was instructed to prepare plans and specifications for said work and the cost of the improvement. With this street paved it will give a paved street from the business section to the East Side High School.

On motion of Alderman John C. Vick, the following resolution was passed permitting the I. & G. N. to use the oil mill track on Bryan Street at any time they might see fit until the city paving and the county road building is completed:

"It is hereby resolved that on account of the fact that the city and county street and road improvement is to begin immediately and that most of the gravel is to be unloaded on Bryan Street and in order to facilitate the work contemplated, the right is hereby granted the I. & G. N. Railroad to switch cars on this street at all hours of the day until further notice." Doubtless all citizens are aware that the railroad ordinarily is allowed to use this Bryan Street track only up until 8 o'clock a. m.

The following resolution was put into a motion by Alderman W. S. Wilson, Jr., and passed:

"It is hereby resolved that \$600 be set aside out of the \$4500 paving fund for storm and water drains at Austin and Bryan Streets and the city engineer is hereby instructed to furnish list of all materials to be purchased and that work begin as early as possible on the work, using day labor, provided all plans, profiles and estimates are approved by the county engineer and county judge."

The matter of constructing a sanitary sewer line on Anderson and Randolph Streets was disposed of as follows:

"It is hereby resolved that construc-

tion of a sanitary sewer line on Anderson and Randolph Streets, costing \$560, be referred to water and light department with power to act."

The matter of shipping gravel and other material into the city for the paving work came up and was discussed at length. It was the action of the Council that the proper notice be given and that the shipping be divided between the H. & T. C. and the I. & G. N.

On motion the Council adjourned.
